WASHINGTON, March 3 (Reuters) - Some rice farmers in the United States have posted record prices for the rice that is part of the \$8.8 billion annual U.S. rice trade, an indication that demand for the grain has been spiking in Asia amid fears of a shortage. Prices for U.S. long-grain rice traded on the Chicago Board of Trade (CBOT) have more than doubled

---

to an array - symfony2 I would like to do a little modification to a code in symfony 2. The goal is to get the rows of a table where the checkbox "super" is checked. I need this to get an array. This is the code I have at the moment: \$em = \$this->getDoctrine()->getEntityManager(); \$repo = \$em->getRepository('MyBundle:Ingredient'); \$qb = \$em->createQueryBuilder(); \$qb->select('i')->from('MyBundle:Ingredient', 'i'); \$sql = \$qb->getQuery()->getResult(); \$q = \$em->createQuery('SELECT i.name FROM MyBundle:Ingredient i WHERE i.super='true'); foreach (\$q->getResult() as \$name) return \$name; } It is working, but I would like to insert the name of the ingredient in an array. A: If you'd like to keep it simple, you can just add it to the \$\_SESSION using the following: \$em = \$this->getDoctrine()->getEntityManager(); \$repo = \$em->getRepository('MyBundle:Ingredient'); \$qb = \$em->createQueryBuilder(); \$qb->select('i')->from('MyBundle:Ingredient', 'i')
