What's new in Elden Ring:

In addition, OSO Games has started official website online : www.osogames.net/en/en. The Osogames servers are never down and always online. Also you will be able to list on Osogames to find others to play with. The OSO Games servers are different from others game servers, it use the same software as the Osogames.net servers. This program has more features than any other game server, such as selecting a character to create, create new skill, maximum limit of skills, etc.

OSO Games is free software, and it will most likely remain free. However, in order to accelerate its development, to protect the server from malicious attacks and to create OSO Games servers more easily and cheaply, we may have to turn an existing OSO Games servers into a paid subscription site. This is a big decision to make, and we will ultimately try our very best to improve the game as much as we can and accept and improve the game. If you have any thoughts about that, we'd like to hear your opinions. We will continue to develop OSO Games like we always have!

Thanks!
