Enjoy a free to play online first person shooter game where you will play the role of hunter and you will face extraordinary danger: the apocalypse is everywhere! Humanity has broken under the brutal invasion of the giant creatures called Nephilim. Eliminate these monsters to save humanity and hunt down the source of their invasion. Test your survival skills in a wild mix of ancient and contemporary weapons, as you deal with a variety of dangerous monsters from the past and to get to the mysterious source of the calamity. This is the saga of Nephilim! ROBLOX STATUS How to Get an ROBLOX Status (c) ROBLOX ROBLOX is the most unique massively multiplayer online game. Play ROBLOX games on ROBLOX.com! GO TO ROBLOX.COM AND LOGIN TO ROBLOX! Setting up ROBLOX Status To create a Robux (ROBLOX currency) account, click "Create Account" at the top-right corner. This takes you to Roblox's website registration page where you can create your username and your password for that Robux account. To have the same Robux status as someone else on ROBLOX, you need to invite them to the game. Go to their status and click the "Invite Friends" button. After you invite your friend, you'll be able to see their actions in your activity feed. Q: Use a matplotlib patch array as a boundary I am trying to modify the matplotlib example (mpl_demo.py) to create a boundary around the middle of a contour plot. I would like to give a matplotlib.patches.PolyCollection object to the line contour(x, y, d=0) instead of the line contour(x,y). I would also like to override the xlim and ylim when I plot the contour. I have tried the following: import matplotlib.pyplot as plt import matplotlib.colors import matplotlib.patches x = [0, 100] y = [0, 100] z = [[100, 1]], [[1, 100]] fig, ax = plt.subplots() ax.set_aspect("equal") ax.contour(x, y, z, colors=({
