You are banished to a ruined land with only your items, runes and wits to guide you. Survive and you may find freedom... but you'll have to fight for it! Bragger's Run gives you the choice to play solo or with friends in online multiplayer. There will be multiple game modes, features, skins and weapons to unlock as you play. The game will feature three unique modes of gameplay, all with their own purpose. - Survival: The classic run 'n' gun where you compete against the clock to score as many points as you can. The objective is simple: Keep on moving, avoid

the enemies and as long as you don't get killed, you'll rack up points. - Career: Players can choose to take on challenges in this mode. To be successful at these challenges will require you to be observant of your surroundings and your enemies as you collect diamonds. - Flick Gun: In this mode, the aim is simple: Kill the most enemies in the shortest amount of time. Players need to be quick on their feet and take advantage of their characters' unique attack buttons in this mode. Career mode unlocks additional features and armor that can be used while in Survival mode. Bragger's Run features four playable characters with their own weapons and abilities. There are two weapons types: melee weapons and ranged weapons. You are free to equip different sets of weapons and armor based on the different types of enemies you run across in the game.

Weapons will not degrade when you use them. - Melee: will be the default weapon type for the 4 hero's and will have a faster rate of fire and greater accuracy. - Ranged: will be the default weapon type for the two boss monsters and have a slower rate of fire and less accuracy. Combat takes place in a 2D isometric environment. Run and gun combat. It's action packed and has a big focus on player skill. Boss encounters have four different variations and within each variation,

there are two different outcomes. There will be traps littered throughout the levels that will require dodging and staying alive. Enemies will use a variety of attacks, some of which can have a knockback or stun effect if you are hit by a specific type of attack. Activating abilities will not always provide you with an advantage; sometimes they will be detrimental. Every attack has multiple stages during which an enemy will be slowed down before receiving damage. Player movement is controlled by the WASD keys, c9d1549cdd

Video Review: Gameplay: 6 Value for money: 8 6 About the game: Score:9.2 Must play: 6
My Thoughts: Ghostsn DJs Gameplay: The gameplay of Ghosts'n DJs offers a nice blend of platform and action-based gameplay. There are six Ghosts to play through to hit the score of a certain obstacle. At the start of each level you have to climb, jump, and fight your way through a level, to complete a stage of a level. The variety of props, enemies, and puzzles are all well designed, making a game that is pretty frantic but is very rewarding at the end. You will be jumping between floors, climbing up walls, and fighting the demons of MvG3 or bringing down part of the dungeon's elevator.
