www.photoshop.com/photoshop_tutorials # COLOR THEME PURPOSES Coloring a photo is an essential step in most types of photo editing. What do you see when you look at a photo of a person? Is it their clothes? Is it just their skin? A particular color can help focus your attention on a specific aspect of a person, such as a beautiful necklace or a fashion statement. Some people color directly into the picture, but most of us do this only in after-the-fact editing. When you edit the Color Channel of a picture, it is possible to select a color to enhance or modify the tint of a photo. You can apply this tint to anything, including the entire photo or just a portion of it. ## Selecting a Color from a Picture Most of the time, when you color an image, you select and then modify a color from the actual picture you are coloring. There are multiple ways to select a color.

SACRAMENTO — A \$6.5 million, two-year expansion project is now set to begin work on the flyover bridge between Sacramento and northeast Sacramento. State transportation officials broke ground on the project Wednesday morning. The 22-lane structure will replace the 8-lane concrete bridge that's more than 30 years old. Engineers are optimistic the structure won't need any major new construction for over 50 years. The project will include a system of tunnels underneath the bridge, so that when the heavily-used span is closed for special events, like the state fair, there's no need to divert traffic. It will also include bicycle and pedestrian paths, sidewalks and landscaped medians along the new, 42-foot-wide roadway. The entire project is expected to be completed by 2022. The project is funded by a \$43 million federal grant, with \$26.6 million of that coming from the U.S. Department of Transportation. "This project will be the crown jewel of the new Sacramento River Bridges Project, the largest public works project in the state's history," said Doug Carlson, secretary of the California Transportation Commission. "By serving the iconic Sacramento River and the transportation needs of Sutter's Fort State Historic Park, this bridge will become the people's bridge, connecting the communities of Sacramento, Elk Grove and Davis." "The \$6.5 million of state funds for the flyover are a good example of how our state transportation investment strategy works. We put dollars to great projects like this in every corner of the state," he added. Construction will begin in January and continue through the summer with the aim of finishing the project by summer 2021. The entire Sacramento River Bridges Project, which includes a series of fixed bridges and a connector tunnel, will cost more than \$3 billion. The entire project is expected to take five years to complete. More information about the project can be found here.
