Thanks to our design you will get the benefit of an intuitive interface, which takes the form of a simple toolbar, where you will be able to browse your plants. Currently, the most convenient way to work with plants is by pressing the Alt key, which will allow you to see all of the plants that cover each tile on the map. All of this is possible for: - Existing plants - New plants - Expansion of existing plants Features: * Available in the downloads from our site * Increased the number of available plants for each tile * You can zoom the map, which is very convenient for observing plants. [new] Global MP: Global MP is one of those games that takes place on the game board. You do not have to take part in the game. This is a game with a possibility of participation from all players around the world (throughout the entire night). It is a game that is played during the night, with one benefit for "winners" and "losers" of the day: the bonus points that you earn will count toward the first place, the second place, etc. and also among yourselves. Of course, the game will continue until one of the two teams is eliminated from the game. Classical Games: Simulation computer games based on the achievements of world antiquity give you the opportunity to understand the Greek and Roman civilizations at a historical stage. Interact with the ancient Greeks and Romans living their daily life on the map, which allows you to build, conquer, form alliances, collect gold and trade and communicate with other players. Features: * Arcade action * Gorgeous 3D graphics * Authentic game play based on the game real history * The combination of classic and contemporary graphics [new] Classegym Designer: Classegym Designer is one of the new games which already excited with many amazing features is becoming reality.
