* Story introduction of the game The story of Tiger Fighter 1931 is about how the young Tiger masters the art of killing and destruction and learns why mankind is so eager to wage war on itself. The game takes place in 1931 a decade after the collapse of the Great War. This is a world where Japan and Germany still stand on the brink of economic collapse, and where the Japanese Imperial Army still dominates the Home Islands with the might of its air power and fleet of bombers. You play as a fighter pilot in an elite squadron of the Japanese Imperial Air Force. Your mission is to seek out and destroy all enemy ships, tanks and planes within your reach. At the behest of the Japanese Empire, your squadron has been dispatched to Guadalcanal, where the Japanese are fighting to maintain control of the islands that lie just south of the newly erected Imperial Navy base at Rabaul. Your days of training are nearing a conclusion. Now, the game begins...
