In a previous article, I talked about working with text in Corel and how to make simple text. Today weâ€™ll talk about how to make a complex, voluminous, how to make text in a radial direction in Corel. So let's go point by point. 1. Open a new song. 2. Create a new document in it, a new layer in it. 3. Make a selection of any font and copy it to the layer. 4. Now create a new layer in the layers palette.
