## On the other hand, if you want to watch tons of movies in the one place, you may want to

one place, you may want to consider paying a bit more money and downloading movies from the iTunes Store. The Store has thousands of movies, many of which you can buy for a single price. And after you buy a movie, it will be available to you on your Mac (iPad, iPod, iPhone, and others), your TV, your PlayStation 3, and many other devices. Amazon Prime video is Amazon Video On Demand.

### But its also Netflix, a musthave staple when youre traveling. With Prime video, youll get free shipping and discounted prices on movies and TV episodes. If youre lucky enough to live in an area with Amazon Video On Demand, you can stream movies and TV episodes for free. What you cant do is download movies. But you can download TV episodes for free. In fact, Amazon has an app for that. The iTunes Store lets you download videos for offline

# viewing, but only music and podcasts, neither of which is

what were looking for. The iTunes Store lets you buy movies, too, but its a pain to download the software, and youll have to commit to the \$4 streaming price. And like Amazon, its difficult to download movies. When you purchase a movie, its immediately accessible on your hard drive. Apple iTunes lets you purchase TV shows, too, but theyre limited to individual episodes. And like

### Amazon, iTunes has plans to offer movies. Pre-order before the movie comes out! Naver IMDb is the worlds largest movie & TV database. You will be able to find the best movies, their reviews, trailers and more. You can also find

the best places to watch movies online. It has also helped foreign movie makers by allowing them to release their movies on their IMDb pages for worldwide distribution. \*Highlights:\* Movie Previews, Scene & more. XBOXXBOX users can also buy and rent movies through the Xbox Video service. To see what the movies are, the movie categories are listed in alphabetical order. Simply click on the alphabet to see a list of movies by that letter. Selecting a movie to download can be done in several ways. Make sure to buy the movie and its content are downloaded at the same time.

This prevents purchases from completing from being made, or if the movie is eventually deleted from the device. And on your computer, youre free to watch any movies youve purchased from the iTunes Store - iDVD, iBooks, and so on. You can choose to buy a movie and have it mailed to you, burn it onto a CD, or watch it on your Mac. You can even watch bought DVDs and Blu-ray discs. iTunes Store movies can be watched as

many times as you like, as

long as youve purchased them. After the 24 hours are up, the movie is removed from you Mac and the price is resynced to your credit card. Regardless of whether you go the iTunes Store or any of the other options for movies -Amazon, Netflix, Google Video, Blockbuster, and others - itll cost you money. And youre not likely to have to do it often; these days, movie studios are releasing more DVDs and Bluray discs than ever, and theyre cheap. So, for most of us, the

local rental company is the place to go for movies. If youre serious about your movies and the number of discs that youre willing to spend on a movie should indicate how serious you are - you should be in the habit of renting movies from local companies. Not only are they cheaper, but your local rental company will provide you with a printed return envelope and will even put their DVD and Blu-ray discs into a bag and mail them to you. You dont have to

accept the movie before you check it out, youre not tied to a 24-hour rental contract, and you can keep it as long as you want. And theyre easy to find. Rentals are available in most major U.S. cities and usually include tax, if youre buying a DVD from a retailer. 5ec8ef588b
