Six US soldiers were killed and at least 23 more injured when a Bradley vehicle hit a CH-47 Chinook in southern Afghanistan on Saturday, US forces said. The incident took place as Afghan and US forces conducted an operation to dislodge a Taliban force from an area west of Kandahar, said US officials. The area is around 10 miles from the city. The US troops were hit by a Bradley - a Humvee-based armoured vehicle - which was part of a convoy accompanying the Chinook helicopter.

This technology is part of our acclaimed Hummingbird sHD Recording System which makes recording seamless, even on a busy stage. The Hummingbird's USB-powered, low-noise compression delivers the finest sound, even in loud environments. Its eight-input channel, four-driver array ensures undistorted output from the stage. Hummingbird uses a proprietary waveguide to deliver the best of both worlds: a flat front baffle with the unfiltered dispersion of a line array, with the low-frequency punch of a ribbon microphone.Various hand operated tools have been used to separate a material from a surrounding material. For example, hand tools have been used to split wood. In particular, hand tools are used to split wood with a utility saw. This type of saw is used to cut a material such as wood which has a relatively small diameter. This type of saw has not generally been used to cut lumber having a diameter of more than about 2 inches. In addition, this type of saw can not be used to make sharp, clean, even cuts in the material being cut. In order to make clean cuts in wood, this type of saw must be used to make a first cut, and then the saw must be turned over and repositioned on the wood. Wooden pallets are used to store goods in warehouses, and transport them to warehouses, stores, and so on. These pallets are generally constructed of wood, and are arranged so that goods can be supported upon them. Currently, pallets are formed and sized by making a first cut in the wood to define the shape of the pallet, and by then sawing the wood. Current sawing operations have a number of drawbacks. For example, current sawing
